INTRODUCTION	RET has prepared a professional Stata course on data analysis with Stata. In a general-purpose Stata is a statistical software package created in 1985 by Stata Corp. It is used by many businesses and academic institutions around the world. Most of its users work in research, especially in the fields of economics, sociology, political science, biomedicine and epidemiology. Stata's capabilities include data management, statistical analysis, graphics, simulations, and custom programming. Stata statistical software provides everything you need for data science and inference—data manipulation, exploration, visualization, statistics, reporting, and predictability
TRAINING OBJECTIVES	The goal of the workshop is to equip the participants with relevant knowledge and skills to manage and analyze projects data effectively and be able to present findings smartly in project reports (baseline, midterm, monitoring and end-line reports).
TRAINING OUTCOMES	<p>After completing this course, participants should be able:</p> <ul style="list-style-type: none"> ✚ Getting Started with Stata 16, create and define project data files, understand new features of Stata 16 https://www.stata.com/features/ ✚ To understand data and variable types, create variables and coding them into data entry file ✚ To do data entry and mining. keying data, import data from excel, access databases and text files, Merging cases and variables between two files ✚ To perform data cleaning, manipulation and transforming ✚ To export final data sets to other formats (excel, text and SPSS) ✚ To perform various descriptive and inferential statistics for reporting findings ✚ To edit and format tables, graphs and export them into Microsoft word for reporting ✚ To purchase the product online
TRAINING METHODOLOGY	The training will be participatory and full practical oriented (group works and discussions) with very limited lecturing on Power-Point. Participants will be installed with the latest TRIAL version of Stata 16 MP to work in handover practical exercise with trainers
DATES & VENUE	<ul style="list-style-type: none"> ✚ The training will be held for 3 days from August 26 -28, 08:30 to 16:00 every day at Mlimani Tower - Dar es salaam. ✚ Training will take place at Land Mark Hotel Dar es Salaam. For more information regarding the training contact us via +255 654 660 551 or info@researchexperts.co.tz
